

Residential New Construction Program

NIPSCO ENERGY EFFICIENCY PROGRAMS FOR HOMES

LEARN MORE
SAVE MORE

Stack up savings by building high-efficiency homes

Through NIPSCO's Residential New Construction Program, **home builders can earn incentives** for building residential homes that meet high energy-efficiency standards.

Eligibility Requirements

- Homes must have active NIPSCO residential natural gas and/or electric service.
- Homes must be detached single family, duplex or multi-family end unit new construction to qualify.
- New homes must meet minimum requirements for ENERGY STAR® 3.1 (Rev 13), Exhibit 1, zone 5 for heating, cooling and water equipment. ENERGY STAR® home certification is not required.
- Application and paperwork must be postmarked within 90 days of rater completion date.
- Projects must be submitted through a HERS/ENERGY STAR® Rater and be entered on the NIPSCO Ekotrope site.
- Program funds are limited. Applications are processed and paid on a first-come, first-served basis.
- Please see NIPSCO.com/RNC for additional eligibility requirements.
